Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoi es, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Kee pompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also t		
Conditions for	safe storage, including any incompatibilities		
Store in a well-well-well-well-well-well-well-well	ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10) ming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of accessible only to trained personnel. Inspect periodically for damage or leaks.
